Reflection images

In love with narrative image, I like the idea that everyone can hang an artwork at home that relates to his or her personal story. That my drawings lead to reflection, introspection, and that they allow to take care of interior decoration as much as to cultivate inner well-being.

I offer original prints at affordable prices, realized by French laboratories specialized in art edition. The printing techniques and paper are carefully chosen for a highly qualitative rendering. Numbered and signed, each copy has the value of an artwork.

The risograph technique brings an artisanal, random touch, which transforms drawings into tactile pieces. I also use Fine Art print for the liveliness of pigment inks, and the preciousness that this technique gives to my images, which your clients will keep intact for several generations.

Doriane

Who is Doriane ?

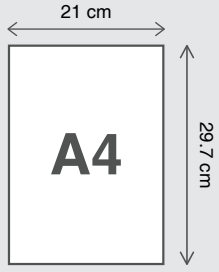

I am a visual artist working mainly on printed image. I graduated from the illustration section of the Royal Academy of Fine Arts of Brussels and the Duperré school in Paris. I live and work in Marseille, in the south of France.

Passionate about contemporary illustration, I have been self-publishing original prints from my drawings since 2020. I work with a network of reseller partners that is constantly expanding, mainly in France and Europe.

I am the author of *Voyage Accompagné*, a graphic narration published by *la 5ème couche* editions in 2022. I also collaborate with illustration editors, such as *Artazart*.

Risograph prints

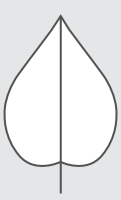

Risograph is an ecological printing technique based on vegetable inks. It allows a handmade quality rendering : the images have a very special grain. The way the ink is deposited on the paper is slightly different from one image to another, giving each copy a unique character.

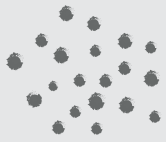

Munken Pure Rough art paper 150g

Numbered and signed by hand

Vegetable-based inks (soy and rice bran)

Unique texture

Inner journey, 21x29,7 cm, risograph print on Munken Pure Rough 150 g paper, edition of 300

Fine art prints

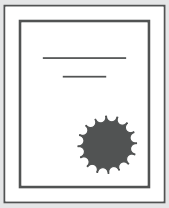

«Fine art» is a digital printing process using high-quality pigment inks and fine art paper for a very high definition printing. The combination of archival quality, extra thick art paper and pigment inks guarantees a very high colour stability over time. Each copy is delivered with its certificate of authenticity.
